**Subject:** RE: Docket No. 2018-124-E RESPONSE TO MOTION TO DISMISS

Parties: I received the following email from the Complainant, titled, "Response to Motion to Dismiss." I will print this email and have it inserted into the case file. As I understand it, our filing system is not yet distributing copies of all matters to the parties. I am forwarding a copy of this email to you, below, so that the parties may respond if so desired. I have used bold-faced type to delineate the email, otherwise it was received as included below.

-David Stark.

**Subject:** Response to motion to dismiss

Thank u Mr. Stark for your time in explaining the procedure with the commission. I wanted to respond to Duke Energy's motion to dismiss. I think It is unfair to consider it without first talking to all parties involved and making them aware of it. I found out about it today. I requested all documentation to be mailed to me and I have yet to receive this at my residence.

I am against a motion to dismiss as I have not have an opportunity to present detailed complaint before the commission. Second the commission exists for this very reason to hear complaints and rule on them. Third Duke Energy did not give any reason why the motion should be dismissed. Speaking with Mr. Stark I want to my my complaint clear and amend it to include all the facts including property damage with photographs and receipts showing dates.

I ask Mr. Stark to deny the motion to dismiss and grant me a fair hearing before the commissioner's to hear my complaint. I feel that I have a legal right to this, this is what makes this country so great. We have a constitution that protects our rights under law.

I will send my ammended complaint out Monday. Thank u for taking the time to read this and please consider denying Duke Energy's motion to dismiss. Alex

**Subject:** Docket No. 2018-124-E

Parties:

I had some procedural questions asked to me by the Complainant (Alex) in Docket No. 2018-124-E this afternoon. During the course of the conversation, he indicated that he has additional filings to make. I am sending this email to make sure that all parties are involved in any email communications. I would ask that any responses be "replied to all" so that we each have a complete email chain.

I have received a request from Duke Energy Carolinas, LLC to hold in abeyance the testimony filing deadlines for all parties and the hearing date pending the Commission's consideration of the Company's Motion to Dismiss. I am inclined to grant that request, and will issue a directive on that motion this afternoon.

Thanks and Regards,

David Stark
